

# INSECTS

## stygian shadowdragon

(*Neurocordulia yamaskanensis*)

**DISTRIBUTION & ABUNDANCE:** Unknown. Occurs in Marquette and Cheboygan counties (no point data available).

**ASSOCIATED LANDSCAPE FEATURES:** *aquatic:* medium lakes; large lakes; wave-washed shore; medium rivers; large rivers; gradient: moderate; gradient: fast; rock substrates; woody structure; *terrestrial:* inland lake; river/stream/riparian/floodplain corridor

**ASSOCIATED THREATS:** lack of scientific knowledge; unknown

**COMMENTS:** Distribution, population status, and threats need to be determined. Adults are hard to catch since their flight season is brief and they fly over water at dusk.
