

# INSECTS

## three-horned moth

(*Pachypolia atricornis*)

**DISTRIBUTION & ABUNDANCE:** State listed as special concern. This species is considered extremely rare in Michigan and may be critically imperiled in the State.

**ASSOCIATED LANDSCAPE FEATURES:** lowland hardwood; mesic hardwood; lowland conifer; mesic conifer

**ASSOCIATED THREATS:** industrial/residential/recreational development; lack of scientific knowledge; pesticides & herbicides; unknown

**COMMENTS:** Need surveys to assess abundance and distribution; need information on life history and ecology; need to assess threats. Development has probably already resulted in significant habitat loss. Mosquito spraying may pose a significant threat.
