

BIRDS

Eastern Kingbird

(*Tyrannus tyrannus*)

DISTRIBUTION & ABUNDANCE: Post-settlement populations of Eastern Kingbird were probably higher than presettlement populations. Individuals are common throughout the State though there is evidence from the BBS of a decline in numbers.

ASSOCIATED LANDSCAPE FEATURES: prairie; idle/old field; pasture; right-of-way; fence row; savanna; orchard; dry conifer; forest opening; swamp; edge; snag/cavity

ASSOCIATED THREATS: pesticides & herbicides; unknown

COMMENTS: Relative severity of listed threats is not well known and other currently unknown threats may exist for this species; a threats assessment is needed for this species.
