

## Timber Sale Preparation Prescription General

Date: 09/04/2002

Forest Management Unit: Grayling

Timber Sale Number:                      Sale Name: **Compartment 068, East**

Local Contact: Mark Montei, Phone ext. 7442 Tx (989) 348-6371 FAX : (989) 348-8825

email: monteim@michigan.gov

Map of Project Area Attached

Legal Description:

T24N R2E Section(s) 21 Description E1/2W1/2; W1/2E1/2

Year of Entry: 2003    Compartment(s):068    Stand Number(s): 15

**This timber sale preparation contract is based on the following acreage:**

Estimated Acres: 125    source  OI     GPS     Other The contractor will use an approved method to determine enclosed acreage to the nearest one-tenth acre. Payment will be based on actual acres rounded to the nearest whole acre.

Treatment & Objectives: Shelterwood.

Stand nbr	Cover Type	Acres	BA / Acre	Treatment	Management Objective
15	O6	125	80	Shelterwood	Oak

Prescription:

1. Stand # 15 is a shelterwood treatment. Cut all jack pine. Mark oak to a residual BA of 40 Sq. ft.
- 2.
- 3.
- 4.

Access: Merton Road to Nine Point Road.

DNR preparation work to be done prior to contract work:

Estimated date:

None	N/A

Contract work can begin:

Immediately

Date: 10/01/2002

**Contract work must be completed by: Date January 15, 2003**

**All paperwork must be submitted to the timber sale administrator 10 days prior to contract completion date to allow for inspections.**

## Paint Line Work

- This is bid item  
 This is not a bid item

Paint line work to be performed. See attached map for locations.

Type of line	Work to be done	Not applicable	Paint color	
Private boundary	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/> Blue	Other:
Sale boundary	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/> Red	Other:
Sale cutting unit	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/> Yellow	Other:
Stand type line	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Other:
Trees marked to leave	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/> Green	Other:
Trees marked to cut	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/> Orange	Other:

Exclusions to mark and why:

Standards for marking lines against private land: The area along Nine Point Road will be marked in red paint along the south side of the road.

**Area calculation:**

Unit	Method	Standard
Sale	GPS	Appendix A
Payment unit	GPS	Appendix A
Stand		

Special Instruction: The payment unit (sale cutting unit) line will be established at the location which divides the sale into two equal units. Follow guidelines outlined in Appendix A. Written permission from the Unit Manager must be obtained prior to bidding and must be submitted with the bid if a method other than GPS is to be used for area calculation.

## Timber Cruising Specifications

- This is a bid item  
 This is not a bid item  
 Required Basal Area Factor:  10     20    Other:

Cruise Line Direction:

Cruising Units	Number of acres per plot	Spacing (chains)
1, 2	1.6	4.0 chains X 4.0 chains
Total Number of Cruise Points	78	

Cruise Special Instructions:

See attachment : **Appendix B.**

Unless otherwise specified, the tally sheets use must be those supplied by the Management Unit.

## Timber Marking Specifications

- This a bid item
- This is not a bid item
- Precise specifications to be delineated at pre-work meeting with DNR staff.

Total Residual BA (Basal Area): 40 square feet.

Treatment	Number	Size
Regeneration gaps per acre	None	
Girdled Trees per acre	None	

	Marking symbol	Minimum DBH	Top DIB
Sawlogs	Exhibit C	9 inches	8 inches
Sawbolts	Exhibit C	9 inches	8 inches
Pulpwood	Exhibit C	4.5 inches	4 inches

Tally intensities

Species / product	Ratio:
N/A	1 :
	1 :

Species to favor: White oak.  
Species to reduce: Red maple.

### Special Marking Instructions

Along the recreation trails (ORV Trail and Snowmobile Trail) mark sufficient trees to provide complete shade for the length of the trail.

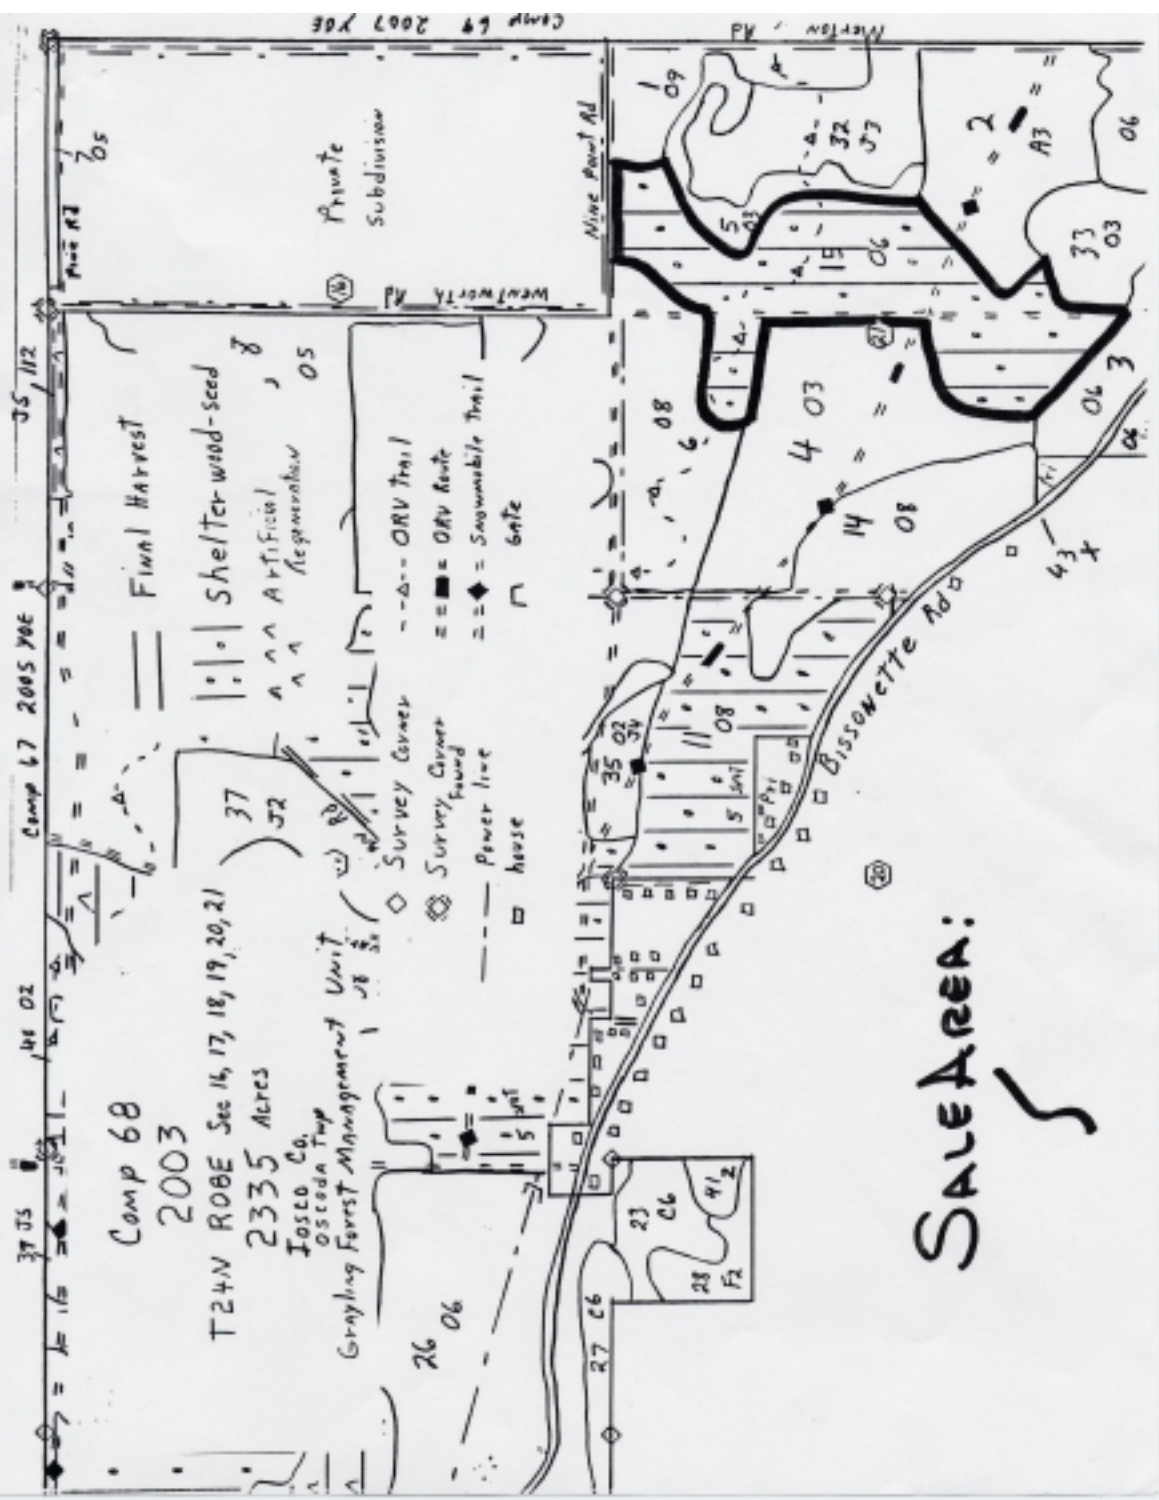

Unless otherwise specified, the tally sheets used must be those provided by the Management Unit.

**Restrictions:** We wish to be able to identify who did what on our sales. You may not have more than two markers in one payment unit without approval. Each marker should have an assigned area to mark (not strips).

**Paint:** Call 989-348-6371 Ext. 7442 or Ext. 7441 to make arrangements for all paint pick up. Paint will be supplied from the Grayling Field Office. Contractors work schedule must coincide with the DNR work schedule for paint supply. The DNR will not be available on weekends or evenings.

### Deliverables:

1. A list of who marked (cruised) each payment unit (names)
  2. A summary of paint used (in quarts)
  3. Tally summaries for each payment unit, (one summary regardless of the number of markers) and all of the original tally sheets.
  4. GPS files for any GPS work done.
  5. A hardcopy of the traverse must be supplied to the timber sale administrator prior to the administrator performing a check cruise on the stand.

## **Grayling Management Unit** **Marking Boundaries and Area**

1. The attached type map delineates the contract marking area.
  2. Marking must be done in dry weather and when tree surfaces are not wet.
  3. Paint the boundary line in such a way that it can be seen both from the inside of the sale area and when walking along the line from either direction (two sides). Each boundary line tree must be stump-marked, at the base of the stump (one side) between the roots extending all the way to the ground.
  4. Paint in a unit line which will constitute the payment unit boundary, dividing the sale into payment units, as shown on the attached map.
  5. Place marks approximately six feet above the base of the tree.
  6. The contractor will keep track of total quarts of paint used per-sale by color.
- 
7. The contractor will use a GPS unit to determine enclosed acreage to the nearest one-tenth acre, unless an alternative method is approved prior by Unit Management.
  8. Position Mode must be set so that GPS receiver collects data from a minimum of four satellites, and positions deliver ODS (over determine system) data. 2D position will not be acceptable.
  9. Must log PDOP.
  10. PDOP mask less than or equal to 8.
  11. GPS units used must be compatible with Pathfinder Office 2.01 and/or capable of producing a Trimble .COR file format. In addition supply a disk of traverse file along with hard copy of the corrected traverse file.

## **Grayling Management Unit** **Timber Cruising Specifications**

1. Cruise at a rate specified in the Timber Sale Preparation Prescription.
  2. Use a 10-factor prism.
  3. Use the product standards to determine products and heights of products. See appendix D of product summary in the “The Compleat Marker: A Guide to Managing Northern Hardwoods on Michigan State Forests.”
  4. Mark location of plots on the map, using the plot number.
  5. Determine residual BA of trees by species where applicable.
  6. Unless otherwise agreed to by the contract administrator and the contractor, plot center will be marked by a stake or stick firmly inserted in the ground ( not snow) with a ribbon attached to it at a height of not less than two feet above the ground, and labeled with the plot number. In addition ribbon at least 12 inches long must be attached to a tree closest to plot center.
  7. All cruise sheets must have compartment #, stand #, unit #, prism factor, date, individual tree species, and the cruiser's name.
  8. The Grayling Management Unit Office will provide cruise sheets.
  9. Estimate the volume in MBF and cords by individual tree species to be harvested using the point sampling cruising method.
