

APPENDIX E

Evaluation of Regional Threat Severity

This page has been intentionally left blank.

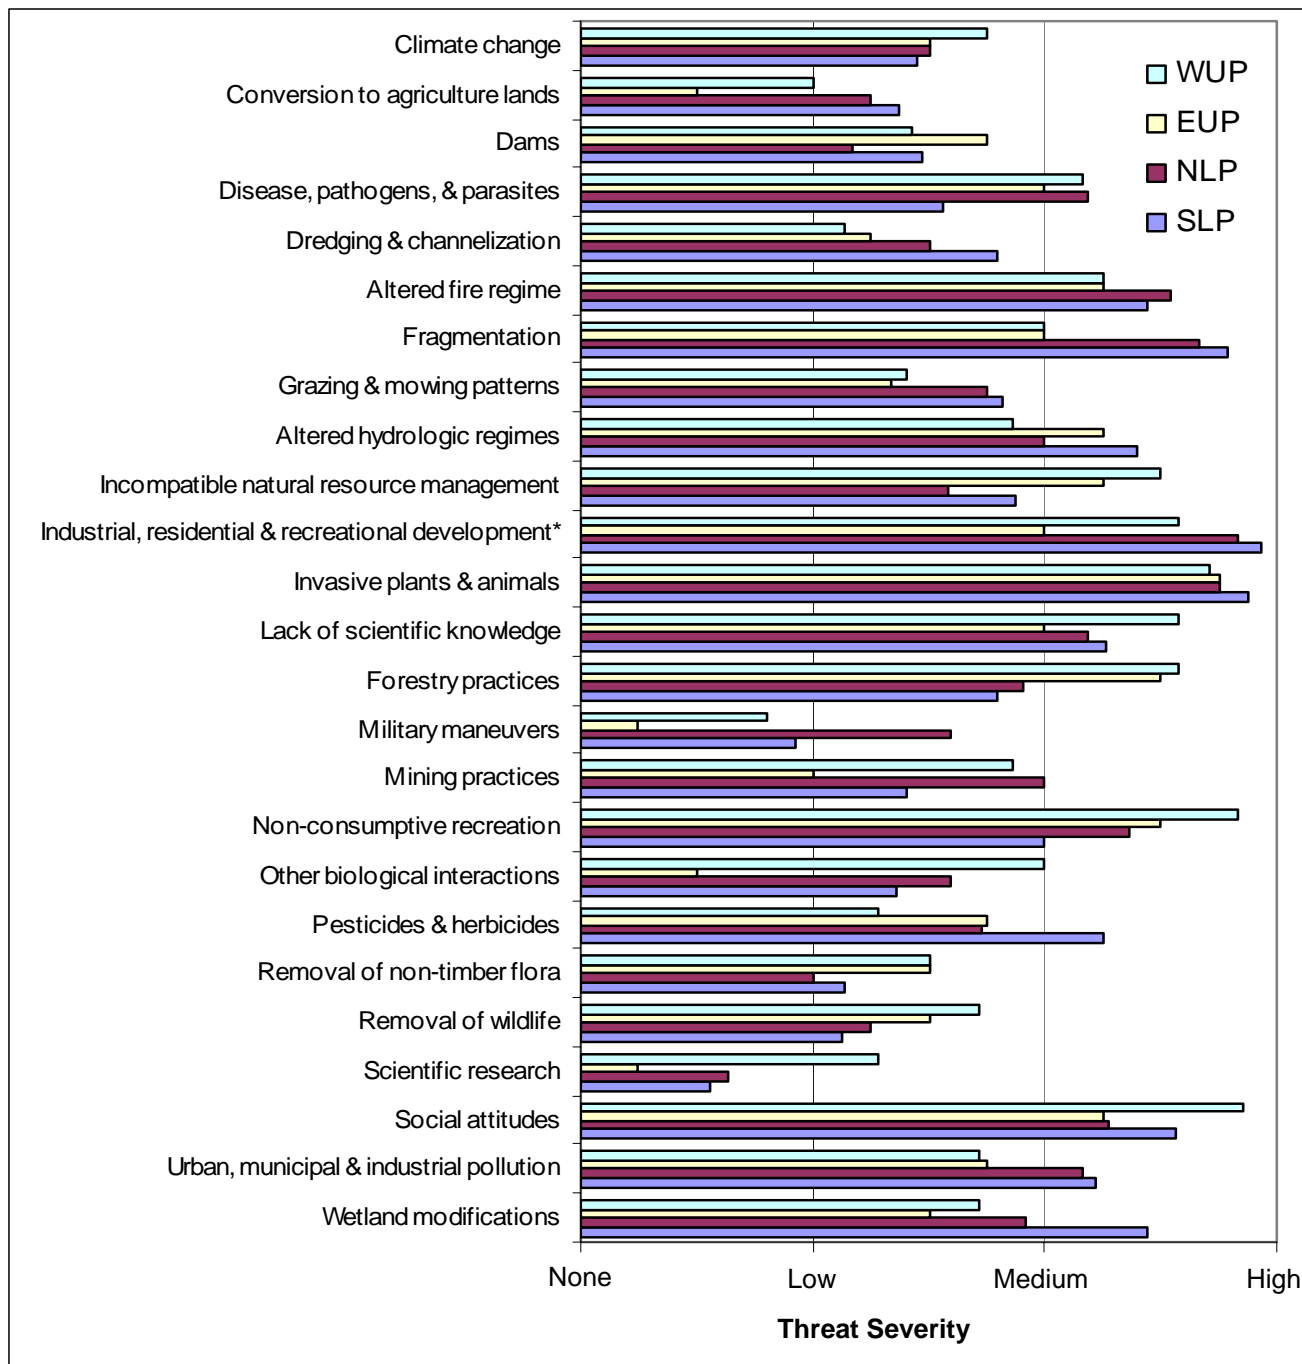

Average aquatic threat severity by lake basin based on information provided by regional natural resource professionals at regional technical workshops.

* Thermal changes as a threat is addressed within the "Fragmentation" threat in the discussion of statewide priority threats.

**MICHIGAN'S WILDLIFE ACTION PLAN
APPENDIX E**

Average terrestrial threat severity by ecoregion based on information provided by regional natural resource professionals at regional technical workshops.

* As development is such a pervasive issue, it has been addressed through all of the other associated issues addressed within the discussion of statewide priority threats.
