Approved Methods: Chop, Trench, Spray and Plant to RP at standard spacing per TMS specifications.

Planting treatments were approved through Compartment Review.

MIFI Start Date: 10/01/2026

Implementation Notes

Comments: FTP Name: Grass Lake and Lund Pine. These stands were cut by 5/2026. Old landings may need some minor leveling of small chip piles and stump spreading. Stump heights are mostly very low and terrain is flat. Slash is moderate due to this jack pine stand being severely damaged from the 2025 Ice Storm and having more top breakage reducing utilization. Roller chopping is not needed. Do Not trench through any roads or recreational trails. Oil and gas, fiber, and electric lines present within CR 624 ROW and possibly in or near other roads.
